

# Join the Environmental Science ImPact Club!

Every Wednesday  
(12.15-2.15pmPST)

Cherry Crest Art  
Room (in-person)

Limited spots!!

A new **Environmental Science ImPact club** is coming which will aim to teach science content holistically, uncovering connections with the earth space science, life science, physical science, and societal systems, so our young students can leverage STEM knowledge to improve the world.

## Mission of the club-

Aim to promote climate change/STEM education and create opportunities for students to solve real problems and be a leader, public speaker and change maker.

## Club offers-

In addition to investing in STEM literacy topics for grade 3-5 chargers, club will also offer opportunities and platform to develop critical thinking, problem solving, public speaking skills, and practice and enhance influencing skills.

## Registration details-

Club is being offered to Grade 3-5 students and will be held on **Wednesday** (in-person), between **12.15-2.15pmPST, starting March1st.**

We have only 30 spots open and are **only** able to confirm spots on first come first sign up and after you have signed up as parent volunteer for at least 2 sessions.

Pls. sign up ASAP to confirm your spot [Student sign up link](#) and [Parent Volunteer sign up link](#)
